Clarification on Traffic Diversion at KM25.75 – KM26.40, KL-Karak Highway

Kuala Lumpur, 11 July 2025 - AFA PRIME Berhad would like to clarify the recent confusion regarding traffic arrangements along the KL-Karak Highway, in relation to ongoing works for the East Coast Rail Link (ECRL) project.

From 8 July to 31 August 2025, a 24-hour traffic diversion is being implemented along eastbound and westbound lanes between KM25.75 and KM26.40 to facilitate the ECRL construction support works.

The diversion involves a realignment of traffic flow within the affected section to maintain safety and efficiency throughout the construction period. We would like to assure that all three lanes in both directions remain fully open and operational. Road users are not required to exit the highway or seek alternative routes, and may only experience a slight shift in lane positioning within the affected stretch.

We strongly advise all road users to exercise caution and comply with all on-site signage and instructions to ensure a safe and smooth journey through the area.

AFA PRIME Berhad remains fully committed to minimising disruption to highway users while actively supporting key national infrastructure initiatives such as the ECRL.

We apologise for any confusion that may have arisen and appreciate the continued cooperation and understanding of the public.
